Sch. Corona, Capt. Augustus Peterson, arrived from Green Bank yesterday with a fine fare of 40,000 pounds of halibut and 15,000 pounds of salt cod.

Sch. Edward A. Rich, Capt. James Goodwin, arrived Monday evening from a salt cod drifting trip with one of the finest fares of the season, 60,000 pounds of salt cod.

Ashore and Floated.

Sch. Ellen C. Burke, Capt. Nickerson, from Boston for the Magdalene Islands for bait, ran ashore on Monday of last week at Sand Point while entering the Strait of Canso, there being no buoy out to mark the danger zone, and the captain being below at the time. She was going at a good rate of speed at the time and ran up hard and fast. That night the Fred L. M. Paint went to her assistance and succeeded in pulling her off.

The Sea Trout.

The gamest of salt water fish after the striped bass is the weakfish, or sea trout. The sport of angling for them is generally enhanced because, feeding, as they generally do, near the surface, it is possible to fish for them with light tackle. While they have been caught weighing upward of twenty pounds, a six or ten pounder is a good size, and the average will only run from one to two and a half. There is never any doubt when a weakfish bites. He does not nibble around the hook, but takes the bait at one fair swoop and then starts off with it like a limited express with time to make up. He is a shy fish, and the man who uses a small line, light leaders and shells to his hook and keeps quiet while fishing is the one who is apt to have the best luck.

Dory Picked Up.

A dory marked Paragon was picked up at Fire Island light Sunday, containing a mackerel net, two lanterns and a pair of oars. Some old dories of the halibut Paragon were sold to the mackerel netters Pet and F. W. Homans to take on their trips out south. The Homans was at New York all right on Monday. It is thought that the dory parted its painter and went adrift from one of these crafts.

The fare is the largest landed by a drifter this season and on this fine trip the splendid stock of \$2509 was made, being but \$4 behind the best stock ever made in this branch of the fishery, that of sch. E. C. Hussey last week. The high line of the crew got \$101.11 for his 18 days work and the cook's check was just \$160. Capt. PLENTY OF BAIT.

Bankers Had No Trouble at the Magdalene Islands.

Many Crafts There Also for Salt Herring Cargoes.

Capt. Stillman Malone of sch. Robin Hood, which arrived from the Magdalene Islands yesterday afternoon with a fare of 1100 barrels of salt herring, reports that herring were very plentiful there this season, so plentiful that the people hauled them on their fields for fertilizer. The salt bankers and shackers had no trouble in getting all the bait they wanted there and in very short time, the price paid being about \$5 per dory load. There were also about 16 vessels there for cargoes of salt herring, the most of them being from down east ports. They all had no difficulty in securing loads.

Capt. Malone saw about all of the salt bank fleet when they came there for their baiting. Some of them had done pretty well on the Peak while others had found little or no fish.
